

## No Kindness Too Small

Hello! My name is Carly Fishbein! I am 10 years old and I go to Meridian Middle School. I love to sing and dance, but I also like to make Jewlery and sell them to people who would like to buy one.

My mom has Crohns. I wanted to raise money because I really wanted to find a cure for Crohns. I decided to go with my friend, Sydni Joseph, to a craft store and buy beads, string, and beads with letters on them. My friend and I sat in my room for hours making bracelets. When each of us made 10 we had excatly 20 bracelets in our bucket.

So then we would go around our neighborhood selling bracelets. We sold the bracelets for \$2.00 each. When we got to the door of the house we said "Hi my name is Carly and this is my friend Sydni and we are selling bracelets for the Crohns and Colitis Foundation! Would you like to buy a bracelet for \$2.00 each?" If they said no we said thank you anyways.

Sydni and I made over \$100.00 for the CCFA! I would really like to find a cure so this should help. Sydni and I, are going to start all over once it gets a bit warmer.

We made bracelets that said Love, Peace, Happiness, Friends, Family, Magic, and stuff like that. We made them in diffrent colors and patterns with Yellow, Orange, Red, Black, White, Purple, Pink, Silver, Gold, Green, Blue, and even more colors to make the costumers happy.

The money that we both raised comes from our heart, and we hope that it will make a big difference! And everyday to make me think of the deed that I did I wear a bracelet that says: Got Guts?
